- The location of first aid facilities and, if applicable, the location of ambulances.
- The location and dimensions of all stages, platforms, scaffolding, bleachers, grandstands, seating with aisle spacing, canopies, tents, portable toilets, booths, beer gardens, cooking areas, trash containers and dumpsters, and other temporary structures.

- Placement of vehicles and/or trailers.
- Exit locations for outdoor events that are fenced and/or locations of exits within tents and tent structures.
- Identification of all event components that meet accessibility standards.

2. Fire Inspection:

A Fire Inspector will inspect the facility during set-up to determine compliance with these requirements. In the event fire and life safety violations are found, the applicant will be given one opportunity for compliance. Failure to adhere to these requirements may result in citation, delay of opening, or closure of the event. DISPOSAL AND RECYCLING PLAN

Will you be using existing, City-owned trash receptacles at your event?

☐ Yes.

Note that you will be required to empty these receptacles frequently throughout the course of your event. Plastic bags must be used to line the trash receptacles. City staff will not service the receptacles during your event, other than during activities designated as Special Event – Parks.

☒ No.

Describe refuse removal plan:

We recycle and have bins to be utilized and will be responsible for our own trash removal.

Other than during Special Event – Parks, event organizers are required to manage recycling at all Reno Special Events (Park Staff manages recycling at Special Events – Parks).

Method and types of recyclable material collection:

☒ cans

☒ plastic bottles

☒ paper materials

☒ cardboard

☒ other

Describe recycling plan if event is not taking place in a City park:

Bins will be clearly labeled and placed throughout the event and emptied during the course of the event. Materials will be sifted through and placed into appropriate recycled designation: cans, plastic bottles, paper, food waste and other. Furthermore, a crew will do a walk-through of all areas of the event, after take down, to ensure any 'moop' (matter out of place) is picked up.

How will you promote recycling at your event?

Bins will be clearly labeled through-out the venue, in addition to sorting the trash into recyclables after the event. This will be billed as a "leave no trace" event.

ACCESSIBILITY PLAN

As an event organizer, you are required to comply with all City, County, State and Federal Accessibility requirements to your event. All temporary venues, related structures, and outdoor sites for special events shall be accessible to seniors and persons with disabilities. If a portion of the area cannot be made accessible, an alternate area shall be provided with the same activities that are in the inaccessible areas. It cannot, however, be offered only to patrons with disabilities. Accessibility provisions may include parking, rest rooms, telephone, and clear path of travel, transportation, signage, accessible vendors and booths.

The City of Reno has the following checklist which is intended to serve as a planning guideline and may not be inclusive of all City, County, State and Federal Disability Access requirements. It is important that you plan for the safe arrival and departure of event attendees, participants, and vendors.

- Accessibility parking and/or shuttle accommodations will be provided for this event.
- There will be a clear path of travel for accessibility purposes throughout the event.
- A minimum of 10% of portable restrooms provided at the event will be accessible.
- All food, beverage and vending areas will be accessible.
- If an information center is located at the event, attendants will be available to assist disabled individuals.

EMERGENCY MEDICAL SERVICES

The City of Reno has adopted the Washoe County District Board of Health's Suggested Guidelines for Emergency Medical Services (EMS) for Mass Gatherings. The general guideline for any mass gathering event larger than 2,500 people per day is access to an Advanced Life Support (ALS) ambulance within eight (8) minutes or one (1) dedicated ALS ambulance, and on-scene medical personnel of various levels suitably equipped, which may vary depending upon the factors evaluated.

The EMS Coverage Analysis Flow Chart on the following page is provided to serve as a guideline for determining the appropriate EMS coverage for your event. Proof of EMS coverage will be required for any event with attendance of 2,500 or more people per day. For events with a daily attendance of less than 2,500, the Host Organization shall provide REMSA with an ingress/egress plan for the event and are encouraged to have an on-site First Aid station staffed by an EMT.
